

Listing of Claims

- 1-31. (Canceled)
32. (Currently Amended) A cell-free fluid consisting essentially of a mammary gland secretion of a human herpesvirus-6A immunized lactating bovid ~~mammal~~.
33. (Currently Amended) A cell-free fluid consisting essentially of a mammary gland secretion of a human herpesvirus-6B immunized lactating bovid ~~mammal~~.
34. (Canceled)
35. (Canceled)
36. (Previously Presented) The cell-free fluid of claim 32 in the form of a lyophilized product.
37. (Previously Presented) The cell-free fluid of claim 33 in the form of a lyophilized product.
38. (Previously Presented) A pharmaceutical composition comprising an effective amount of the cell free fluid of claim 32 and a pharmaceutically acceptable carrier.
39. (Previously Presented) A pharmaceutical composition comprising an effective amount of the cell free fluid of claim 33 and a pharmaceutically acceptable carrier.
40. (Previously Presented) A method of treating chronic fatigue syndrome in a human which comprises orally administering to the human an amount of a cell-free fluid

consisting essentially of a mammary gland secretion of a human herpesvirus-6A immunized lactating mammal and an amount of a cell-free fluid consisting essentially of a mammary gland secretion of a human herpesvirus-6B immunized lactating mammal effective to treat chronic fatigue syndrome in the human.

41. (Canceled)
42. (Previously Presented) A method of treating chronic fatigue syndrome in a human which comprises orally administering to the human the pharmaceutical composition of claim 38, so as to thereby treat chronic fatigue syndrome in the human.
43. (Previously Presented) A method of treating chronic fatigue syndrome in a human which comprises orally administering to the human the pharmaceutical composition of claim 39, so as to thereby treat chronic fatigue syndrome in the human.
44. (Canceled)
45. (Canceled)
46. (Currently Amended) A pharmaceutical composition comprising an amount of a cell-free fluid consisting essentially of a mammary gland secretion of a human herpesvirus-6A immunized lactating bovid ~~mammal~~ and an amount of a cell-free fluid consisting essentially of a mammary gland secretion of a human herpesvirus-6B immunized lactating bovid ~~mammal~~ effective to treat chronic fatigue syndrome in a human subject and a pharmaceutically acceptable carrier.

Applicants: Gregory B. Wilson et al.
Serial No.: 09/776,010
Filed: February 2, 2001
